Quick Setup

Installing Batteries
Your camera comes with four AA alkaline and four AA Ni-MH rechargeable batteries. Do not mix different types of batteries in the camera. If Ni-MH rechargeable batteries are not charged, use the alkaline batteries in the camera.

Installing Batteries

Charging Batteries
Use only Ni-MH rechargeable batteries in charger. Do not charge other types of batteries with charger.
1. Align + and – ends of Ni-MH rechargeable batteries with + and – connectors in the charger.
2. Push batteries into charger until they snap in place.
3. If needed, attach the correct power plug to the charger.
4. Plug charger into a power outlet.
5. Remove charged batteries when charger indicator lights go out. It takes approximately eight hours to fully charge batteries.

Inserting a Camera Memory Card
1. Open camera card door.
2. Insert camera memory card into slot with connecting end of card facing camera, and the lip on the card facing toward the front of camera.
3. Do not force card into slot.
4. Close camera card door.

Setting the Clock
1. Set Mode dial to Camera Setup.
2. Slide POWER switch to the right to turn on camera.
3. Use button to select .
4. Press DO-IT button.
5. Use buttons to adjust date and time fields.
6. Press DO-IT button.

Taking Pictures
1. Set Mode dial to Capture.
2. Slide POWER Switch to the right to turn on camera.
3. Center subject in viewfinder.
4. Adjust ZOOM.
5. Press SHUTTER button half-way down to lock auto focus, then completely down to take picture.

Viewing and Deleting Pictures
- To view the picture just taken on the LCD, press button.
- To delete, press button when icon appears in the LCD.
To automatically Quickview every picture:
1. Set Mode dial to Capture and turn on camera.
2. Press the MENU button.
3. Use button to select .
4. Press DO-IT button.
5. Use button to select ON, then press DO-IT button.

Previewing Pictures
To preview picture on the LCD before it is taken, press DO-IT button. Using Preview drains batteries at a faster rate.
